### FP5KE Saint-Pierre and Miquelon -update

Our dates are now confirmed: Arrival in Saint-Pierre via Newfoundland on September 14 in the evening, then transfer by boat to Île aux Marins, followed by a 1 km walk to reach our QTH. Operations are expected to begin on September 15 in the afternoon, after a full day of setup. We will leave Île aux Marins on September 26 in the evening for the return flights on September 27 via Newfoundland and then on to Paris. If all goes as planned, FP5KE should be on the air from September 15 to 26.

This isn't exactly what we originally planned for the return journey. Initially, we were supposed to sail back to Newfoundland and then charter a bus (350 km to the airport). Unfortunately, SPM-Ferries cancelled their Saturday boat due to maintenance (??). Since there are no scheduled flights to Newfoundland on September 27 we had no choice but to charter an Air Saint-Pierre flight to go back to Newfoundland. This increased the budget by €7300, but it was the only way to avoid shortening the DXpedition. It is definitely complicated and expensive to go to Saint-Pierre and Miquelon and any help is welcome.

### **3Y0K Bouvet Island -update**

Due to legal issues brought to the team's attention, it has been decided in the best interest of the team, sponsors, and supporters that the 3Y0K lottery be cancelled. Everyone who purchased tickets, will be fully refunded via PayPal. We apologize for any inconvenience or misunderstandings.

### **KH9/K9HEI Wake Island -update August 7**

Jim K9HEI reports the LoTW certificate for his upcoming Wake Island activity was received yesterday for K9HEI/KH9 meaning it's likely he will run with this call and not KH9/K9HEI. Will update this info and post picture to reflect any changes. Yesterday evening (August 5th local), Jim was on his way to Hawaii, then on to Wake Island.

The station is an ICOM 7300 and a Super Antenna vertical. I plan to use FT8 and SSB for the most part. Sorry, not very good with CW; I'm a long way out of practice with that mode. ### **Guess the QSL**

**VP2V, BRITISH VIRGIN ISL** Seth, N4XTT and a team of young operators will be active as VP2VRX during the CQWW SSB contest. This operation features a team of operators (W3MLJ, KC1KUG, N4XTT, K4BEN and KC3VPB), all in their late teens and early twenties, who bring energy to DXpedition activities. The group has been planning this operation for many months, coordinating equipment, antennas, and logistics for a memorable and fun operation for both the team and the stations they work.

The timing works out well with the CQ Worldwide SSB Contest happening that weekend, which will bring lots of participation from stations worldwide. The plan is to start things off with a few days operating as NP2R from the US Virgin Islands (October 20-22); allowing the team to test equipment before moving over to the British Virgin Islands for the main VP2VRX operation during

**ZD9, TRISTAN DA CUNHA** DX-World has learned that a Tristan da Cunha Dxpedition is in the pipeline for 2025. Whilst it is quite some time away, we have gleaned the following info. It will be a 3-4 month long DXpedition to ZD9 which could be extended by another 2-3 months bringing it to (potentially) 6+ months. The additional months could depend on PayPal donations / extra donors. Focus is going to be on CW & SSB. There will be VERY LIMITED usage of FT8. In fact, FT8 will ONLY be used on 80 & 160 meters. Bands of operation will be 10 meters to 160 meters. 1kW to monoband heavy duty vertical antennas due to Tristan da Cunha's very inhospitable weather.

## **Special International Calls**

### **CQ International Dog Day during August**

When a group of radio operators begin calling "CQ International Dog Day" in August, they're not just looking for QSOs.

They are in search of people who have room in their hearts to help the abandoned, abused and homeless dogs around the world in whatever way they can. These dozen or so special event operators know the power of rescue because they've been deeply involved in it themselves: Hanz YL3JD and his wife opened their home – first in Holland, later in Latvia – and have given needy dogs a second chance at a new family. In Australia, and later in Germany, Ed DD5LP and his wife discovered – several times – that their household was incomplete without canine company. Many of the other operators' rescued dogs were adopted after hard lives on the street; others were at the pound, hours away from being euthanized.

International Dog Day (and in the US, National Dog Day) is August 26 every year. The tradition was created by US pet advocate Colleen Paige as a day to recognise the needs of society's unwanted and cast-off dogs and affirm the commitment to adopt, donate or raise awareness of their special needs.

Hanz amplified the original message by adding an amateur radio component in 2022, taking the special-event callsign YL1DOG and operating as a single station. The following year he was joined by Chris, G5VZ, and David, G4YVM, in the UK. By 2024, a team of eight US rescue-dog advocates, operating as K2D, had come on board. This year is the biggest yet, as hams in Germany and other countries run with the pack. All operators will be looking to hear from dog-lovers and supporters in either CW or SSB on HF, on VHF/UHF simplex, or via DMR and Echolink.

International Cat Day will be operating as a separate event, two weeks before the Dog Day operators get on the air – and they will be carrying a similar message for cat-rescue awareness. See [catdayradio.org](https://catdayradio.org) for details.
